

High Quality EEG Sensor Technology and Accessories

Sintered silver/silver chloride electrodes technology (Patented technology)

- High quality durable sintered silver/silver chloride (Ag/AgCl) electrode sensors for precise measurement of weak or low bio-potentials such as EEG, EOG, ENG, EMG, GSR and evoked potentials.

Sintered Ag/AgCl electrodes

Disposable EEG electrodes

Coated gold cup electrodes

Pure Ag/AgCl electrodes

Snap cable

Crocodile clip

Medical-grade TPU

Standard DIN connectors for all kinds of amplifiers

High quality material non-tin-soldering

OEM/ODM service

Wuhan Greentek Pty. Ltd

Greentek has been one of the leaders in EEG electrode/caps technology worldwide. The products have entered 700+ hospitals domestically and 300+ labs in the world.
